Angelo M. Pellegrini : The Food-Lover's Garden before purchasing it in order to gage whether or not it would be worth my time, and all praised The Food-Lover's Garden:

0 of 0 people found the following review helpful. This book was fun to read because the author's love of cooking and ...By Not Old YetThis book was fun to read because the author's love of cooking and gardening was evident. As he spoke of the vegetables, he described how he would use them in various dishes. This is an old book, so some of the things labeled as rare or unusual, such as arugula, are commonplace now. He also used bug sprays that have been taken off the market because of their toxicity.My book club read this and we all agreed that it made us want to try some new vegetables.1 of 1 people found the following review helpful. GardenBy Floyd PowellThis is an outstanding book. Angelo Pellegrini has always brought his basic concepts of eat natural, eat healthy to his readers. I would suggest reading all of his books.0 of 0 people found the following review helpful. Three StarsBy Julie L. KimberlinWas one of my college professor's so just wanted to read.

How to successfully marry gardening and food.

"In every sense of the word a modern classic."--M.F.K. Fisher
