See the Images I uploaded above. The cat is simply sweet and the sun on the cover would go nicely with two other sun/moon/star pictures. Most of the other items are too simplistic for me. But this would be a nice book for beginners or for stitchers of complicated and lengthy projects to take a break.Oh! And see the sampler image above. This was a popular humorous saying in the 19th century. I'm slow

on the uptake but smiled when I finally got it:WORK LIKE HELEN B. MERRYNice life philosophy.-----OOOPS: in July 2013, removed almost all customer-uploaded images from product pages. Sorry.\*2 of 3 people found the following review helpful. Unique and beautiful designs!By Reviewer Dr. BethThis book is a collection of cross-stitch samplers in unique and beautiful designs. Since I love anything with a celestial theme, I was attracted to the full chapter devoted to several attractive and varied designs incorporating sun, moon, stars, and planets. More common categories such as garden and nature include more original work than you will find anywhere else. Many of the samplers have a wonderfully old-fashioned look to them, and the completed projects are finished and photographed beautifully. The book also contains a wide variety of cross-stitch alphabets to assist you with customizing your projects. A wonderful book for serious cross-stitchers who are addicted to samplers!2 of 3 people found the following review helpful. Celebrating the beauty of our world and beyondBy Jennifer Cameron-SmithThis book has some wonderful celestial themes, some beautiful samplers and some lovely designs inspired by the natural world.The presentation is great: tips and techniques for those new to cross-stitch are included as well.There is something here for the accomplished stitcher as well as for someone who is just starting with this craft.Highly recommended.Jennifer Cameron-Smith

This collection of original cross-stitch sampler designs features 25 different design ideas, all tied together under the theme of heaven and earth.
