**Elizabeth Wilhide, Susie Hodge : The Great Pottery Throw Down: A Celebration of the Art and Craft of Ceramics** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Great Pottery Throw Down: A Celebration of the Art and Craft of Ceramics:

A superb guide to pottery and the official companion to the BBC2 primetime series. Filled with striking photographs and illustrations, *The Great Pottery Throw Down* provides a complete introduction to the art and culture of ceramics, and captures the passion and drama involved in turning lumps of clay into beautiful objects. It reveals fascinating details about the materials, processes, and skills involved, and explains the history of pottery from ancient terracotta warriors to the coffee mug on your breakfast table. And the stories of creativity and craftsmanship through the ages will inspire you to step up and throw the perfect pot!
