Melinda Coss : The Handmade Soap Book (The Handmade Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Handmade Soap Book (The Handmade Series):

1 of 4 people found the following review helpful. OK Beginner BookBy Beal used this book to make a few of the soap recipes. I thought the author did a good job of explaining and the pictures are quite lovely but mine definitely didn't turn out looking like hers. I also didn't like the fact that the recipes I try all used lye and I really wanted to steer clear of using it. So if you want to use lye I would say there are quite a few plausible recipes in the book. If you don't I'd recommend looking elsewhere. Also, if you are a veteran soap maker than this book isn't for you.

In a world filled with pollution and chemicals, this book shows you how to create your own soaps and bathtime luxuries using only natural ingredients and very little specialist equipment. Create the perfect gift for family and friends, kids and grown-ups. This book features a huge range of exotic and tempting ingredients, such as peach, peppermint, ylang ylang, cinnamon and chocolate, and includes recipes for shampoo bars, body splashes and bath creams. The simple, sumptuous and easy-to-follow recipes and luscious photography will tempt and inspire all.

"But it is Melinda Coss, in "The Handmade Soap Book" who assures the uninitiated that they can make soap. She is the playful coach who, with humor and joy, shows the delightful side of soapmaking. Her book is also chock-full of the work of still-life photographer Emma Pelos, and sure to capture the heart of any gardener. It is a creative presentation that brings out the extraordinary beauty of ordinary garden goods, such as herbs, fruit, and twine, in combination with soap." -- The Register-Guard
