Margot Potter : The Impatient Bearer before purchasing it in order to gage whether or not it would be worth my time, and all praised The Impatient Bearer:

She clearly has a charming personality and it shines through, here. She is witty and intelligent, but even more importantly (although that makes this book a great read, anyway!), for beginning beaders, she is thorough and totally informed about the subject of beads, tools, findings, and particularly how to put together a design. Designing is a talent. Margot is a great teacher: you learn without even realizing: she explains the importance of beading boards, color wheels, why you need certain tools and how to use them. Her projects have fun, snappy titles like: Victorian Temptress Choker (whoo-hoo!) and Bahama Mama (which put me in a mellow mood). I was attracted not only to her color schemes and her choices of projects, both simple and more complex. I liked her tips. I was encouraged by the manner in which she explained each

project, and I liked her little cartoon person--but then--I am a little redhead too! Her hair is more perfect than mine could ever hope to be, but I felt a kinship as I enjoyed reading *The Impatient Beader*. I look forward to making the "Cha-Cha-Cha" Bracelet as my first project from this book! I am excited and enthused by the fun imparted by author Margot Potter!6 of 6 people found the following review helpful. The best beading book ever!By reddhedgirlThis is such a refreshing book, and Margot is a new type of teacher. You will enjoy just reading the book, and yet, you will find yourself itching to get out the beads and get going. Margot Kidder has such a fun personality that is so obvious in her books--I know I would love just hanging out with her!You will not be sorry you bought this book (while you're at it, buy her second book, too. It is a must have!)2 of 2 people found the following review helpful. Not Fabulous!By Rotties GirlThis book has very simplistic designs! I was disappointed by the styles in here and the majority are not something that I would make or wear. As with all books, I always pick-up some useful ideas or techniques. What I did like was some of her bead choices. She used unusual beads and chains that I will now be on the lookout for!
