Service and advertising By Tolin Just realized that there were in fact some colored pictures inside which helped me visualize the images. Sorry for the mis-information, it was an oversight when I quickly browsed through the book. 17 of 17 people found the following review helpful. Poorly Done Book By a_melee_ensued This book is very shoddy and I'm sorry I bought it. The color plates (what few there are) are re-screened from another publication, they suffer from moire and look awful. The book is tiny and the steps to produce

the few projects are not always clear. Some of the crucial illustrations are no more than scribbles, I mean this literally--they don't even rise to the level of hurried sketches. Nobody tried very hard producing this book and no self-respecting publishing house would have printed it. Waste of ten bucks.

The "Knotty" Macrame and Beading Book has a fun variety of knotted jewelry and projects. This update of a classic has a wide range; including chokers, necklaces, bracelets, plant hangers, and more! A very popular comprehensive knotting book with beaders of all ages. Lots of illustrations and patterns are included.
