Great book, great ideasBy CindyThoroughly enjoyed the great ideas in this book. Each project is so well thought out you can't go wrong. Very helpful preparation is spelled out so doing the craft for a group goes smoothly. Tried the hand felted butterfly and the garden stepping stone so far.

Making crafts projects with one child or one hundred has never been simpler! This unique book features forty-two crafts from apple garlands to woolly sheep each accompanied by two sets of instructions that make it easy to plan and do crafts with children. "Before Craft Time" tells the instructor what materials to buy and pre-assemble before craft day arrives. "Craft Time" instructions describe the steps children take to assemble the finished craft. These delightful craft activities are the perfect addition to any birthday party, scout meeting, or after school program.
