6 of 6 people found the following review helpful. Not impressedBy CustomerThis coloring book is subpar. Some of the pictures span two pages, so there's a seam in the middle of your picture. The cover photo is the best of the whole book. The other drawings are very plain. There are so many other better coloring books on . I'm not going to waste my time with this one and will just give it to my 2 year old.0 of 2 people found the following review helpful. Five StarsBy Gina P.relaxing to color
