From Inspirations Books : The Perfect Resource for Creating Heirloom Smocked Garments (A-Z of Needlecraft) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Perfect Resource for Creating Heirloom Smocked Garments (A-Z of Needlecraft):

0 of 0 people found the following review helpful. A very nice book by A-Z series By CustomerA very nice book by A-Z series. But most of it is already covered in A-Z of Smocking. I made lots of Smocking projects after purchasing the A-Z book series on Smocking. 1 of 1 people found the following review helpful. Great book. By Panysgirl This book is a must for beginner smockers. I lost my copy and was thrilled to find this copy. Great book. 10 of 10 people found the following review helpful. Good General Sewing Instructions By Simple Mom This book give an overview (in an A - Z format) of basics for garment construction as related to smockers. It gives a general overview of different fabrics which is extremely useful if you can't make it to a fabric store (I have to order fabric over the internet). And, as I previously stated it covers construction techniques and terminology with both words and lots of pictures. I would have given it 5 stars if it had given more focus on fitting garments. I would definitely purchase this book again.

Part of the bestselling A-Z series of specialist needlework books, this extensive how-to text focuses on garment construction for smocking enthusiasts and is the ideal companion to the A-Z of Smocking. Presented in an easy to use style, this book is overflowing with hundreds of step-by-step photographs and invaluable hints for creating beautiful heirloom garments from blouses to bridesmaids' dresses.

The A-Z series presents time and tested crafts that are beloved by many. This is a new edition. Turn your smocking into an heirloom. It's for people who already know how to smock, but want to know how to put a garment together. The book is aimed at the construction process of creating traditional garments, using clear step-by-step instructions with photographs. It contains techniques for piping, pleating, attaching lace, sashes and more but is not a how to smock book. There is a materials section, techniques and construction. The photographs are good and the instructions are professional yarnsandfabrics.co.uk Mar 06 If you already know how to create smocking designs, this book is the perfect complement to that knowledge. Learn how to turn smocking designs into a beautiful garment following the construction techniques detailed in clear and easy steps. The spiral bound pages allow you to flip easily through the initial pages of general information, onto sewing techniques... This book is the natural follow-on from The A-Z of Smocking. Sew Today Dec 05 This is a handy book for those who enjoy creating smocked fabrics but need some help incorporating them into wearable garments. This super guide takes a step-by-step approach through the entire process from selecting appropriate fabrics to the finishing touches. The techniques section is particularly helpful with a complete photo guide to blocking, stabilising, positioning and cutting out a garment from smocked fabric. A number of heirloom sewing techniques are also included for inserting lace, and adding scalloped hems and piping. The construction section includes detailed instructions for assembling various styles of children's dress and covers assembling the bodice and skirt, adding collars or necklines, inserting sleeves, creating hems, appropriate fastenings, plus sashes and cummerbunds. Whilst the illustrations are based on classic designs, these techniques could easily be applied to any smocked garment. SEWING WORLD Dec 05 This is a handy book for those who enjoy creating smocked fabrics but need some help incorporating them into wearable garments.
