What really makes this book stand out ...By ElizabethI have not had this book to long but really like it. What really makes this book stand out is that it includes a bit of every thing -- instructions on how to crochet/knit, a place to journal, a record projects and yarn, a few patterns to get you started, and some extras like the symbols connect to colors, animals, shapes and gemstones. It does not contain specific prayers, so that part is up to the reader. I gave it 4 stars instead of five because the it only has 3 crochet patterns (I do not knit) and they are all duplicates of patterns contained in The Crocheted Prayer Shawl Companion which I own.10 of 10 people found the following review helpful. prayer shawl
