The Quotable Teddy Bear book is wonderful!By SewmusicalladyI love this little book and so does my youngest granddaughter who has claimed it as her own! Such a precious little book with wonderful illustrations!0 of 0 people found the following review helpful. Not worth muchBy Chuck101Quotes aren't very inspirational or original and some don't even seem very related to Teddy Bears. Also, most are from people I've never heard of, which takes something away from them. The pictures aren't generally related to the quotes, and the book isn't as nice and "miniature" as I was hoping. Overall, not my best purchase... That said, it was cheap.0 of 0 people found the following review helpful. A gift for friendBy Mel Cwho loves teddy bears. We were all enchanted by it!

Teddy bears are often our dearest childhood friends, our comfort when we're blue, and our most polite tea-time companions. Here's wisdom from the world of teddy bears accompanied by a spirited introduction from the noted teddy bear expert and author Ted Menten, with charming full-color photographs.
