Schulte The Road to Atlanta: Regimental Wargame Scenarios for the Atlanta Campaign May-June 1864 is a well-designed scenario book on the Atlanta Campaign which allows users of many ACW

miniatures rules sets to quickly and easily set up games in their format. The color maps are professionally designed with views showing all units and no units so you can better see how to create the playing surface. The Orders of Battle provide both PFDE and figure strengths for easy conversion to any basing model. Ratings are based on a four point system with suggestions for how to convert these to other ratings systems. Butkovich picks a wide variety of scenarios from the possible list, including skirmishes and a cavalry action but also giving users some of the major actions of the major battles of the campaign, including Resaca and Kennesaw Mountain. The full list of scenarios is as follows: Crow Valley, May 9th, 1864 (What If?) Stevensons Attack, May 14th, 1864 (Historical) McPherson at Resaca, May 14th, 1864 (Historical) Lays Ferry, May 15th, 1864 (What If?) Gilgal Church, June 15th, 1864 (Historical) Latimer Farm, June 18th, 1864 (Historical, heavy skirmish) Noonday Creek, June 20th, 1864 (Historical, cavalry) Bald Knob, June 20th, 1864 (Historical, skirmish) Pigeon Hill, June 27, 1864 (Historical and variants) Cheatham Hill, June 27th, 1864 (Historical and variants) If you're a miniature war gamer using any rules set and any basing model, you'll find that this scenario book works for you with very little conversion needed. Anyone interested in the Atlanta Campaign, even non-war gamers, will find value in this book. I've often found that utilizing the maps in a war game scenario booklet helps me better understand the flow and initial setup of a given fight. With *The Road to Atlanta: Regimental Wargame Scenarios for the Atlanta Campaign May-June 1864* continues his line of excellent scenario books as well as his work on the Atlanta Campaign.
