Blacksmith MasterBy MarthaMark Aspery has written two excellent blacksmithing guide books. As I understand it, these are THE books to have (they were gifts...so says the recipient). I thank him for his excellent work, for quick shipping and the personal touch of inscribing the books, too!

Mark begins with a leafing hammer and takes you through the necessary tools to form many types of leaves. He then continues his instruction from Roses to Ginko and many more. This is a large book of over 300 pages measuring 11.25" x 8.75" and contains an amazing number of images - over 1300!! Mark Aspery is an exceptional smith and instructor. You will profit from the knowledge you will gain in this excellent book.
