**Hunter Co Johnston : The Stocking Knitter's Manual c.1860 - Civil War Era Stocking Knitting** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Stocking Knitter's Manual c.1860 - Civil War Era Stocking Knitting:

36 Pages. This book is an early, Civil War era book that is filled with interesting patterns on how to knit socks and stockings for infants, children and adults in a variety of sizes. It provides instruction in several methods to make toes, turn heels and to shape the legs. The patterns are arranged by size, children's socks are grouped by age and the socks for adults are in two sizes, with extra patterns to make a gent's knickerbocker or kilt hose. There are no pictures for the working of the socks and stockings, but there are several pictures and instructions to make lacy patterns be used to make fancier stockings. A treasure trove of patterns for history lovers and sock knitters alike! \*\*Please note - because this book is so old, it might be difficult to follow for novice knitters, and there are no diagrams of socks - only stitch patterns as shown.
