The Ultimate Manga Colouring Book for Adults Teens by author and artist Stan Bendis Kutcher: The book contains 50 original Manga-themed illustrations in black white with the focus leaning toward colouring Manga portraits. The Manga theme of this colouring book is based on the books "How to Draw Amazing Manga" and "How to Draw Manga Faces". The pictures are printed on one side of each page and have cutout lines on the blank pages. This means artists may use other colouring mediums other than just pencils without having to spoil artwork on the back of the page. Also look out for other books by the author such as "How to Draw" books or "Daily Planners" in the theme of Manga or

Comic Art.
