The best garden book for zone 4 By jmatts I have had books by Lauren for 10+ years and they are the ones I always go back to for advice, ideas, and to gaze at the wonderful photos. This is like a "new" book because a lot has changed since the first version. I am glad I got it!

Well-adapted plants, practical and environmental perspectives, and a uniquely aesthetic approach to gardening in a challenging climate compose the story that is The Undaunted Garden by pioneering plantswoman, garden designer, and author Lauren Springer Ogden. Highlights include: More than 370 new full-color photographs 100 portraits of

underused, exceptional plants Information on drought-tolerant and deer-resistant plants Insights and lessons from Lauren's three personal gardens

From Booklist This book is for the active gardener yearning for continued intelligent, informative counsel. Weather-resilient planting is discussed in terms of all types of plants that have been proven--in the author's own garden--to withstand such extreme situations as dry shade or hail. She is a veritable fount of horticultural wisdom, presenting a range of topics that encompasses far more than simply weather resilience. The most eye-opening facet of this book (and one sure to intrigue avid gardeners) is the wealth of references to unusual plant varieties not found in most gardening books. Alice Joyce "Lauren Springer has created a classic work about plant composition...Her gardener's net is flung worldwide to capture the most beautiful species and those most effortless to grow." *Fine Gardening Magazine* "This is the 'tough plants for tough places' idea done to perfection." *National Gardening* "Lauren Springer has the gift of infectious enthusiasm, and as a gardener, writer, and photographer she takes her place among the best." *American Horticulturalist* "One of the most sensible and helpful garden books to come along in years." *Harrowsmith Country Life* "One of the earliest, and still best, books on the topic (of drought-tolerant plants)." *This Old House Magazine* "Hundreds of Lauren Springer's luminous photographs illustrate an enormously painterly approach to garden design." Nina Williams, editor, *Country Living Gardener* "A witty, lyrical manifesto for gardening in continental regions. This is a horticultural chinook blasting stale ideas and clichés out of the way." Panayoti Kelaidis, curator, *Rock Alpine Garden, Denver Botanic Gardens* "An instant classic! Lauren Springer's ground-breaking book broadens the horizons of every gardener working in difficult climates. It is practical, passionate, and persuasive..." Rob Proctor, author of *The Outdoor Potted*
