From village ponds to ocean dolphins, this book presents a collection of cross stitch designs from the water's edge. The

book caters for stitchers of all abilities and tastes - from simple star fish designs to the more delicate depiction of an estuary scene where a dragonfly flits through a group of wild irises and reeds - the authors provide all the necessary stitching instructions together with ideas for the use of designs on completion. Easy-to-follow charts combine colour with symbols to help follow the instructions.
