Initially planned on 4 starsBy TwoMetreBillbut after comparing this book to many others, I think this is the best of the bunch for our area (near Denver, CO). Do consider your location before purchasing any book on Xeriscaping as there are probably better ones for true deserts like Arizona. This and "Square Foot Gardening" are my standards for gardening over 2 acres.0 of 0 people found the following review helpful. Great GuideBy GardenlilyVery helpful guide for the new gardener in a semi-arid climate!0 of 0 people found the following review helpful. Five StarsBy BpalmGreat book, nice price.
