**Liz Hubbard : Thread Painting** before purchasing it in order to gage whether or not it would be worth my time, and all praised Thread Painting:

0 of 0 people found the following review helpful. Four StarsBy CustomerInteresting, both machine and hand embroidery1 of 1 people found the following review helpful. I was hoping there would be info on doing it ...By P. MurphyI was hoping there would be info on doing it by hand, but the book appears to be all machine embroidery. It has a lot of detail on how to go about doing it--all the basics for machine thread painting as well as the actual painting she does on the fabric before starting the machine stitching. The author's work is stunning, but most of it is landscape--lovely landscapes, but I was looking for other sorts of ideas as well. The photos do show the actual stitches fairly well.

A book on thread painting, a creative technique that is likely to appeal to anyone who enjoys painting and/or embroidery.
