I thought I had picked up all the Tilda books but somehow this one escaped my notice until recently. If you are looking for nautical inspired decorating ideas which I was, this book is full of really great ideas and inspiration. Also, the photo styling and photography is outstanding, more like an interior design book. I only wish I could find Tilda fabric for these projects here in the States with their muted grays, aquas etc. Here is a list of some of the projects with directions from the book: the 3 different sized whales you see on the photo, a sea urchin decorative pin cushion, a floating jelly fish to hang from the ceiling, a Tilda doll with cute bangs, and a sun dress with directions for a knitted cardigan, totally adorable popsicle pin cushions, a wall hanging (on the

cover) and some pretty sea shell fabric/crochet flowers with pearl centers. The dress for this doll is a little plain for my taste, but these dolls are so easy to alter, you could dress her using patterns from any of the other Tilda books to dress her any way you like, the real bonus was the knitted sweater that I have not seen before. You could also take the dress pattern up a notch by embellishing it quite a bit, ie. adding a pocket fussy cut from some cute nautical themed fabric, adding several rows of lace around the bottom edge of the dress etc. I don't know why but these dolls are hugely popular in Russia, I have found the very best You Tube tutorials for making Tolda Doll Hair from Russian You Tube videos. If you've ever owned a Tilda book before, you will already know, the English language translation is not that great. I literally had to take a class to make my first Tilda doll as I had never made a fabric doll before and I wasn't able to figure it out myself with the directions in the book. Once you learn how to make one, all the others are made with very similar techniques so even if the directions aren't that great, you get the main idea of what needs to be done from the photos and limited directions that aren't in the best English. Please do not photocopy and upload the patterns from the books to pinterst. I've seen so many of them up there and its a major copy right violation and also takes away from Tone's ability to make a living from making these books which I really hope to see many more of in the future.6 of 6 people found the following review helpful. Tilda By The SeaBy Pen NameI have quite a few books by this author/designer and they are all very enjoyable. Charmingly photographed, excellent page lay-outs. The book was just a tiny bit thinner than I thought it would be but I did read the description, so should have known that. Lots of creative inspiration inside.0 of 0 people found the following review helpful. Great book!By CustomerI just love this book. Everything looks like it will be so much fun to make.

Recreate memories of the seaside with simple sewing, papercraft, crochet and knitting projects using beautiful Tilda fabrics, yarn and embellishments. Be inspired by life at the beach and in the ocean to make gifts, toys and pretty accessories for your home. From adorable whales and fishing girl dolls to hanging mobiles, applique blankets and summer scarves, the designs will take you on a journey of the perfect seaside holiday.

About the AuthorTone Finnanger is a talented designer and an expert in drawing and painting techniques. She worked as an interior designer and decorator in Oslo, Norway, before moving to a small island near Tonsberg. She has a distinctive style that has proven to be popular with crafters of all ages and abilities. Tone formed the Tilda brand in 1999 when she was just 25 years old. It is now well known for its whimsical, comical and naive characters in the form of animals and dolls. The brand has also developed a range of craft products for sewing and paper craft that are produced and distributed by Panduro Hobby.
