Mostly for beginners and decorative paintersBy Bonnie GibsonThis book is geared towards beginning to intermediate gourd crafters. The main emphasis of the book is decorative painting instruction. Basic construction instructions are included, but are limited in scope to two or three pages out of the entire book. The painting instructions are well illustrated, and material lists and patterns are included.The projects use a combination of gourds or gourd parts, wooden backings, and clock kit parts (available in craft stores or online.) There is a complete listing of materials and supplies (including exact paint colors) as well as patterns for each project.Recommended for beginning gourders or those that like detailed painting instructions.

Sammie Crawford, the Fairy Gourdmother, provides patterns, color palettes, supply lists, and tips for preparing the gourd. Following her step-by-step directions for each project, illustrated with 199 color images, create eight clocks, decorated in brilliant colors.
