Tokidoki is hitting it out of the park with their recent releases and I am so glad that they are expanding their collection into stationery and arts and crafts. When I saw the listing for origami paper back in December I knew I had to have it. Seeing as how there are no photos of the designs, it was going to be a surprise to see what they were including in this pack, and let me tell you it was a lovely surprise!1. As the front of the book states, there are 16 designs, over 250 pages and designs that you can color.2. The paper is great material, not flimsy at all.3. The designs are so cute!! If you are a unicorno fan, which my obsession continues to grow for, then you will love this set.4. The first few pages include basic origami folds, reverse folds and folding hints.5. There are also instructions on how to make a crane and magic star.6. Out of the 16 designs, three are ones you can color.7. The paper tears out easily.8. Each piece is 6"x6"9. These would also be perfect to help with scrapbook projects, DIYs and using in planners as well.I am so obsessed with this book. I am so glad that I purchased this and will probably buy another set or two cause I never want to run out!0 of 0 people found the following review helpful. So cuteBy C.
