Deanna Campbell : Towel Folding 101 (Discover the Wonderful World of Towel Origami) before purchasing it in order to gage whether or not it would be worth my time, and all praised Towel Folding 101 (Discover the Wonderful World of Towel Origami):

8 of 8 people found the following review helpful. Made a Great GiftBy Jessie MacMillanI bought this as a gift for my niece, who had just moved to a new apartment. I used the book as an excuse to buy her towels. As a child, she learned to fold napkins in intricate ways, so I knew that towel folding would appeal to her. Another reviewer said that this was the book for those who work on cruise ships and need to learn to fold towels; that observation convinced me to buy the book.The only problem, for a non-cruise-ship folder, is that many of the animals require a beach towel or two -- and that the photos show some of the animals made with patterned beach towels that probably aren't easily available. I bought a couple of bath sheets for my niece with the hope that they might stand in for beach towels.The directions are clear and the photos are helpful.By the way, the two penguins on the cover of the book are made with face cloths and are the only animals in the book that are made solely with face cloths.0 of 0 people found the following review helpful. fun with towelsBy CustomerGreat fun and easy to do1 of 1 people found the following review helpful. Love the crittersBy SashinFabulous folded towel designs. Of course, you may need lots of different colored towels to produce what is shown...but you can also use your own towels for the less complicated ones.

Towel Folding 101 is the ideal guide to creating a menagerie of towel animals. The 15 projects in this book range from a simple, quick-to-make penguin to a medium-sized cuddly panda and an enormous green crocodile! The projects include: Easy-to-follow photographs, including pictures of the finished models Step-by-step instructions Helpful tips on how to vary the projects Suggestions for hiding bath time treats Templates for features with which to accessorize your animals. Never again will your house guests be greeted with a pile of neatly folded towel squares balanced on the end of the bed. Who knows what they'll find next: a scorpion, a snail, or even a whale, complete with frothy water spout. Deanna Campbell originally trained as a fashion designer and has continued her interest in fabrics, form, and textile arts of all kinds throughout her varied career. Towel folding is just one of the many skills she has learned on the way-taking textile craft to a very different dimension.
