Michael Rosen : Turning Words, Spinning Worlds: Chapter in Organizational Ethnography (Management, Organizations Society) before purchasing it in order to gage whether or not it would be worth my time, and all praised Turning Words, Spinning Worlds: Chapter in Organizational Ethnography (Management, Organizations Society):

This collection represents Michael Rosen's encounter with an 'ethnography of the center'-the study of cultural orders in the heart of the metropolis. Considers occupational worlds from finance and advertising to the subworld of drug dealing.

"It is a collection in which both text and subtext speak to the possibilities and difficulties of ethnographic practice and its inextricably tied promise and pitfalls. And together, in the light they cast upon each other, they produce what

should be the ultimate goal of good ethnography: multilayered, evocative stories that ring of truth."-Gideon Kunda of Universities of Stanford and Tel Aviv "Rosen's writing style anticipated and illustrates recent attention to writing practices, including narrative as method....his writing challenges the boundary between social science and fiction."- Dvora Yanow of California State University
