Patrice Boerens : Two-Hour Cross-Stitch: Flowers: 300 Quick Easy Designs before purchasing it in order to gauge whether or not it would be worth my time, and all praised Two-Hour Cross-Stitch: Flowers: 300 Quick Easy Designs:

3 of 3 people found the following review helpful. Excellent, Wide Ranging Collection of Lovely Small Charts By Ida's Girl This book delivers a wide range of flower charts; modern, retro, a flower alphabet, numbers, days of the week, and more. There are also garden themed charts and a good number suitable for children's clothing, bibs, etc. This is a sturdy, well bound book that should hold up to a lot of use. These charts lets you turn small gifts into special treasures. And, if you like larger projects, combine charts to make lovely pillows, table clothes, etc. I am using them as blocks for a lap quilt. This is a fine collection that you will go back to again and again. 3 of 3 people found the following review helpful. Delightful By MCSlady3 I just rec'd my book and have already made a few of the flowers. Each one is delightful and looks prettier than the picture. The designs are so easy to follow. Just wish the author would've named each flower, as I do not know my flowers. But, that wouldn't stop me from buying the book again. I'm making the flowers into little frig magnets to send along with greeting cards. A little surprise is always nice. 0 of 0 people found the following review helpful. wonderful little book! By Austintatious wonderful cross stitch patterns, Thank you so very much.....and even though it was a used book It doesn't smell and is nearly pristine!

It takes only two short hours to grow a cross-stitch garden! These 300 easy, quick, vintage-and-retro inspired designs all feature lovely and richly colorful flower-based motifs. Some are singular blossoms, while others are gathered in

wreaths or placed in pretty flowerpots. Plus, there are other charming images to help fill out a sampler, including windmills, children on garden swings or bestowing a bouquet, and even flower-bearing teddy bears. Every stitcher will cherish this charming collection.

Boerens's (Two-Hour Cross-Stitch) second collection of small cross-stitch motifs focuses on flowers, with designs organized by type (traditional, deco, formal, and fantasy, along with a section of monograms and messages). As expected, the motifs are colorful and cheery, and the variety of styles means that there's a floral pattern for every need. Knowledge of cross-stitch is assumed--this is predominantly a pattern book--but there is a two-page introduction to the basics. VERDICT: The variety of floral motifs makes this book an excellent value for cross-stitch collections. --
