By Helen I actually bought this book for my sister. She has made me two doilies for my table and is now in the process of making me a table runner. :) I would say it has more than paid for itself. :) 2 of 2 people found the following review helpful. Standard stuff. By Mimi I bought the book because it has the pineapple swan pattern I saw years ago, and didn't buy then.... Most of the patterns in the book are pretty standard, nothing too exciting. If you already have a lot of pineapple patterns, there won't be much here that you don't have something better in your own collection. The best are the swan bathroom set that I liked, a butterfly

hair ornament, earrings, a little drawstring bag and a baby sweater set. There are also the usual doily assortment, table topper, and a couple of shawls. For anyone who HASN'T done pineapple crochet, this would probably be a good overview of the pineapple design.
