Iris Nevins : Varieties of Spanish marbling: A handbook of practical instruction with twelve original marbled samples before purchasing it in order to gauge whether or not it would be worth my time, and all praised Varieties of Spanish marbling: A handbook of practical instruction with twelve original marbled samples:

Tracing the development of scientific sociology from Comte to the present, *A Hundred Years of Sociology* is a concise, narrative history of the major figures, ideas, and schools that lie behind the work of contemporary sociologists. Covering both theoretical and empirical contributions, the book describes the convergence of two major streams of sociological thought: a speculative and philosophical tradition and a reformist, fact-finding tradition. Throughout the volume, the author is as much concerned with the content of ideas as with their labels and chronology. The important developments in both American and European sociology are considered in full, and special attention is given to the emergence of social anthropology and social psychology and to the profound influence of World War II on current work in the field.

[This book] provides insights valuable for the sociology of sociology. Bridget Pym, *The British Journal of Sociology*

[T]he present volume may serve as a quick refresher for those who know something about the history of sociology. Werner J. Cahnman, *American Sociological This book, about the last hundred years of sociology, provokes a concern about the meaning and commitments flowing from sociological inquiry. [A] short synopsis of some important trends in sociology. Kiyoshi Ikeda, Social Forces* About the Author G. Duncan Mitchell received his degree from the London School of Economics and Political Science and has taught at the Universities of Liverpool, Birmingham, and Oxford as well as at several universities in the United States and Canada. He was professor of sociology at the University of Exeter and the author of several books including *Sociology: The Study of Social Systems*, co-author of *Neighborhood and Community*, and editor of *A Dictionary of Sociology*.
