Love ItBy Adriane52This coloring book is really nice. I have been coloring for probably the last ten years and this is one of the nicest coloring books. I don't think I would use permanent markers which I usually color with because it may bleed through but the pages are not thin so you can test them for yourself. I will use gel pens instead but crayons or color pencils would due also. Most of the mask are not intricate but there are a few moderately

intricate ones. That gives you a nice break from the really intricate patterns because sometimes they can be tedious.2
