**Walker CR Schafer EW : Vertebrate Pest Control and Management Materials** before purchasing it in order to gage whether or not it would be worth my time, and all praised Vertebrate Pest Control and Management Materials:

Hardcover, ASTM Proceedings volume, Committee E35.17 on vertebrate pest management. One of a series, this STP 752 volume is from 1981 and contains reviewed papers on a variety of related topics regarding pest birds, mammals, and aspects involving aquatic environments, including hazards to marine organisms from various control options.
