Angela Wainwright : Victorian Cross Stitch Samplers before purchasing it in order to gauge whether or not it would be worth my time, and all praised Victorian Cross Stitch Samplers:

By Jane in Milwaukee I really like Angela Wainwright. This is one of 4 books making cross stitch patterns from historic works: Medieval Cross Stitch Samplers Renaissance Cross Stitch Samplers Celtic Cross Stitch Samplers I own the Celtic one as well and really appreciate how she lays them out: first there is a several-page discussion of the time period; then she shows specific pieces and then gives a good color chart to make it. She tops it off with finishing and shows stitch diagrams. Very workable, practical book.

Victorian designs from textiles, porcelain, jewellery, wallpaper and tiles have been recreated in cross stitch for this collection of samplers and smaller pieces. Vibrant colours, flower motifs and flowing lines are features of these pieces. Commemorative samplers stitched by young women of the period have directly inspired some of these designs, and other are reinterpretations of the decorative work of the era. Each design is based upon a specific piece of Victoriana which is displayed alongside the finished new work. Each project is photographed and supported by a full-colour chart and detailed instructions. Designs may be followed exactly or used as a source of inspiration, so that this book is suitable for beginners and more experienced stitchers.
