Nice But DatedBy CustomerThis isn't what I had expected. It is a 1991 book but Victorian is 1860 at the latest and this "ain't it!" It's a showcase for florals a la 1990 that falls flat. Although the floral motifs are pretty the book just doesn't do justice to it's designer. After seeing the cover and knowing some of Jane's work I thought it would be great. It's dull and forget the christmas ornaments. I found them sad. A 5 year old's work could make more delightful designs than those presented by her editor.

Inspired by original handpainted charts from Berlin and a lifelong passion for Victoriana, designer/author Jane Greenoff presents a collection of cross-stitch projects - all on a Victorian theme and featuring flowers, lace and beads. The designs are cross stitch with additional finishing techniques such as hemstitch and decorative four-sided stitch, plus a few in tent stitch. Beginners are provided for with step-by-step instructions, colour charts and colour

photographs. The author's first book was "Cross Stitch Castles Cottages".
