By totoOne of the earlier reviews said something about 'ala Martha Stewart', so I decided to purchase the book. And the reviewer was so right. You will save a fortune with these amazing ideas and it will look like Martha is your auntie and she decided to pitch in and help. The author is a very hands-on crafter and makes everything look so beautiful--and easy. I have a spate of nieces planning weddings (which is why I was looking for a wedding planner book) and I am going to look SO knowledgeable :-)

By C. BrantWe all know weddings are extremely expensive. All of the flowers, cake, decorations, and dresses add to the total cost. However, you can reduce the cost of the wedding by doing decorations yourself. This book gives you a pile of great ideas of how you can do these craft projects yourself. In fact, handmade decorations are much better than store bought since it puts that personal touch on the wedding that you really are going to want to draw attention to. The wedding day itself is a personal day and the decorations that go with it should also match!
