I bought this off the strength of the reviews saying this was their favorite book when they were a child and tracked it down. Well, wow. It did not disappoint. There is something magical about it and the poetry just works! The illustrations are perfect and it gives you this feeling of the wonder of a stormy night. So glad I bought it and am adding it to the permanent collection. 1 of 1 people found the following review helpful. Wonderful Kids' Book By Denise Michaud This was my daughter's favorite book as a child. We spent many of her adult years quoting small passages from this book and when the sky looked a certain way, we would say it was a "Bimulous night" and talk about eating spaghetti, etc. I was so excited when I found this book and bought it for her for Christmas. She was so happy she said that if I hadn't bought her anything else, she would have been satisfied. It made my Christmas

because I made hers! This is a wonderful little imaginative book that could easily become a family favorite.0 of 0 people found the following review helpful. For magical friends of any age.By Leslie TrottierOne of the sweetest and most adorable books ever. A perfect gift for an adult friend who still has a sense of whimsy. Beautiful language, poetic illustrations, delightful humor. Give it with a clean white handkerchief for a most charming gift. How else will your friend know if it is going to be a bimulous night?

Describes the strange and splendid things that can happen on a bimulous night when the sky is like lace.

Cooney's cheeky, ethereal watercolors of otters eating pasta and rabbits playing dominos are a big part of Like Lace's appeal. The rest of its charm owes to the bewitching text by Elinor Lander Horwitz, who writes in the tradition of nonsense literature, like Lewis Carroll and Edward Lear . . . It evokes summer evenings of tingling possibility . . . --Downeast MagazineSuch a story deserves fantastic illustrations, and there they are an unforgettable feast for the eyes. --The Vermont Country Sampler. . . an original creation which survives on the power of its mood. Imaginative children with their own night fantasies may well blend this vision with their dreams. --New York Times Outstanding Book of the Year (1975)About the AuthorElinor Lander Horwitz is the author of 14 books for children, young adults, and general audiences and has received several book and journalism awards.
