Most of the cards are by Keiko Nakazawa and are called "New 180 Degree". These 180 degree possibilities are new and exciting and the reason why I give this book four stars. A lot of the work of Masahiro Chatani is of buildings and is of the folding out 90 degree type. Here are Nativity, Shepherd, Wreath, Poinsettia, Trees, Angels, etc, all beautiful cards that lie out flat. There are also two pre-cut and perforated cards for instant use. 2 of 2 people found the following review helpful. Best DIY Christmas Cards Ever! By Customer Fantastic book! I bought this book 6 years ago and I still make awe-inspiring Christmas cards every year using the designs in this book. After creating the designs in this book, I've bought other similar books and enjoy using this technique to make cards. 5 of 5 people found the following review helpful. Beautiful pop up book By Bev VI loved making the cards in this book. The church in the woods turned out beautiful As well as the santa sleigh. But I own other books from the same author. Not for any beginner. The cuts are really small and you have to be precise with the cuts and folds. This is the most affordable pop up book you can find buy these Authors Masahiro Chatani and Keiko Nakazawa. You should definitely purchase this book before purchasing the rarer and more expensive books from these same authors.

Twenty delightful Christmas images to fold and cut out, accompanied by easy-to-follow patterns and instructions. 4 color, 30 black-and-white photos. 30 drawings. 20 patterns. 2 pre-cut cards.
