Am sending it back.By Jan C.Pretty disappointed in the quality of the print and paper. It made it difficult to enjoy all of the information contained in the book. No colored pictures and lightweight paper made it more like an old catalog than the quality book I think it could be. If you're mostly interested in a book that appears to be very biodegradable, this would be the one. I'm going to send it back.1 of 1 people found the following review helpful. best wire wrapping book available for beginners or experienced wrappersBy MartyIn my opinion, best wire wrapping book available for beginners or experienced wrappers.1 of 1 people found the following review helpful.
