Beautiful and creative puzzles/gifts for young kids!By Anna ElizabethThese beautiful wood puzzles will delight the imaginations of young children, and as the author says, will make fantastic gifts for them! As he also points out, they are perfect because they are portable, unbreakable and provide a wonderful opportunity for children to develop their coordination and motor skills, as well as giving them a sense of accomplishment as they assemble the puzzle.Most of these puzzles are of animals, which is fantastic as it

encourages children's natural interest in our furred and feathered friends, in addition to all the other benefits! There is also a section at the end for wood crafts such as wind chimes etc. It is of course also great fun for the adults making them! If you or your spouse like woodworking and using scroll saws and power sanders, and just generally tinkering around in the workshop, then this provides the perfect opportunity to do so, and at the end you have a fantastic present for the little ones! I highly recommend this. 1 of 1 people found the following review helpful. Young mom with two boys
By Janine Kelbach
Crafts seem to be something of the past for me. I came from a family of four girls, and crafts were a task of everyday life. It kept us out of our mother's way, and enjoyed doing them. As a young mother now of two boys, I get in a rut because there never seems to be any crafts for boys. Recently, I was on my search again. I came across the book, "Word Puzzles", by R Wayne Koepp. In this book, he has many different types of puzzles. This is the craft for boys! We have gone on to make many different puzzles from the fish to the airplane. There is a whole topic of wood puzzles my husband has also enjoyed making with our boys. 1 of 1 people found the following review helpful. Beginners treasure
By Kindle Customer
I was looking for some simple wood patterns for a newbie jigsaw user, and so examined this book. The puzzles are not a challenge to an individual with confidence. If you're inexperienced with woodworking these are definitely a starting point.

Once you start creating these fun and colorful toys, you won't want to stop! Wooden puzzles are perfect gifts for young children and Wood Puzzles has over 45 puzzles with patterns. You'll have as much fun creating them as the little ones have putting them together. There is also a bonus chapter with crafts that are perfect for craft shows or to use up scrap wood. The materials and tools you need for creating wooden puzzles are basic, and wooden puzzles are a great way to learn a new craft or brush up on your woodworking skills.
