EACH BOOK HAD SOMETHING VERY SPECIAL OF IT'S OWN TO HELP IN THE PROCESS...THIS BOOK WAS GREAT BECAUSE IT USED DIFFERENT MATERIALS THAN ALL THE OTHERS, EACH BOOK OFFERS THAT BUT THE MORE VARIETY OF USUABLE UNUSUAL MATERIALS, THE BETTER!! 1 of 1 people found the following review helpful. Great wreath making bookBy CACThis book is great! I cant wait to get started on some wreath making.....2 of 2 people found the following review helpful. great bookBy Amanda E JohnsonGreat book, very detailed, easy to follow. The pictures are very bright and colorful and give great detail to help you with ideas.

From the very first idea to the delightful finished project, here are the most detailed beginners instructions youll ever find. There are endless tips for design, display, and increased speed and efficiency.

From Library Journal Generally associated with holiday celebrations and home entertaining, wreaths can also be a creative outlet for the home decorator. Basic enough to get the beginner well on the way to making wreaths, this book also serves as a source of design ideas for those already experienced in this craft. Cusick (Potpourri Crafts , Sterling, 1992) takes the reader step by step through the wreath-making process, from choosing the base and the materials and the methods of attaching them to adding decorative touches and displaying the final product to best advantage. Built around almost full-page color photographs of a gallery of wreaths, the text includes guidelines for wreath design as well as information on tools and gadgets that make the wreath-making process easier. It is refreshing to discover a book that provides so much visual and textual information in such a small package for so little money; recommended for public libraries.- Janice Zlendich, California State Univ.
