The delivery was quick and packaging was very good.15 of 17 people found the following review helpful. Extraordinary wreaths!By the Olive dollyThis book contains some of the most extraordinary weaths I have seen! The projects are fun and easy to create.

Wreaths for the holidays, wreaths for a neglected corner, wreaths that accent a mirror: whatever wreath you want to make, just ask how? and here's the answer. Open the covers, and inside this beginner's primer you'll find a cornucopia of exquisite ideas that anyone can master--from simple wreaths that use a premade straw form to ones that incorporate interesting found objects. A general section on the fundamentals will get you started; then start crafting some basic designs, including wreaths made with pussy willows or snake grass, a Vertical Wall Festoon, and a Japanese River Cane or Oriental Bamboo Wreath. Hang the Spring Wreath outside, or go Western with a wreath fashioned out of

rope. A gallery showcases beautiful examples of the craft.
