There are lots of designs suitable for beginners, and a few challenges for more experienced stitchers. The designs are very pretty and would look lovely in a child's bedroom. The charts are all in colour, but some are very small. The faces are very stylised, with very simple features which are a little disappointing. However, the finished pictures look so sweet, I don't think the charts will put you off. There are a range of designs from children to hats and shoes. If you like designs from the days gone by, you'll enjoy this book!

Go back in time to when grace and style reigned and cross-stitch patterns featured charming images in warm colors. This collection, by a leading designer, includes exquisite pictures of Victorian children, old-fashioned costumes, and the nostalgic pastimes of yesteryear. A delightful scene of a boy with a hoop and a puppy captures the playfulness and fun of a carefree childhood, while an enchanting view of two skaters is wonderfully evocative. 25 projects in all. 128 pages (all in color), 8 1/4 x 11.
