Mr Glenn Ashton : Your Purrfect Way to Publish Promote Your Amazon Kindle Books before purchasing it in order to gage whether or not it would be worth my time, and all praised Your Purrfect Way to Publish Promote Your Amazon Kindle Books:

0 of 0 people found the following review helpful. A powerful go-to manual for aspiring self--publishersBy SarahI thought it absolutely fantastic in its usability and breadth. I'm a novelist who recently began ebook self-publishing. I've

figured out some of the basics but this book maps a gazillion new pathways onward and upward. I've found nothing to compare to this manual in clarity, range of topics and dip-in-ability. Ashton's been generous in offering this amount of research so affordably to ebook self-publishers at all levels. Written in a readable, friendly style too.
